Christian Pentacle

The Pentacle / Pentangle was used by the ancient Christians from the 3rd century to the 10th -14th century .It was a symbol of Christ the Saviour. The five points of the pentagram represented the 5 wounds of Christ - hands,feet and the crown of thorns .The circle around the pentagram represented the eternity of God, with no ending and no beginning.
This is in stark contrast to today where the pentagram is criticised by modern Fundamentalist Christians as a symbol of evil.

Around the late 14th century, the church decided not to focus on the wounds of Christ , but rather what caused the wounds - So the pentacle pentangle went out and the cross came in.
The church evenually chose the cross as a more significant symbol for Christianity and the pentacle / pentangle as a Christian symbol gradually ceased

Listen, Feel, Believe

This is a shout out to the Christian witches, closeted and opened. Who walk in beauty and faith, who find Life as an expression of Love and Beauty. Who aren't afraid to walk their truth.

Shout out to the Christian Witches who see and hear our God in all things; the stillness of the woods, the sound of winds dancing among the leaves, the rolling of Ocean waves, and the sweet kiss of sunlight on our skin.

And Praise be to our God who brought us to this path of inspiration, creativity, and love.
